

## PRE-MEETING MASTER CLASSES

**SATURDAY, OCTOBER 7, 2023**

7:30 AM - 12:00 PM

**Master Class: How I Do It – Challenging Cases in Sleep Medicine** \$  
Primary Curriculum Category: Sleep Disorders

**Master Class: Interstitial Lung Disease** \$  
Primary Curriculum Category: Obstructive Lung Diseases

**Master Class: Advances in Lung Cancer – Rocketing Forward With the Cancer Moonshot** \$  
Primary Curriculum Category: Lung Cancer

**Master Class: Pulmonary Hypertension – Expert Didactics and Discussion** \$  
Primary Curriculum Category: Procedures

## CHEST ANNUAL MEETING

**SUNDAY, OCTOBER 8, 2023**

7:00 AM - 8:00 AM

**The Intersection Between End-of-Life Care, Professional Burnout, and Team Engagement in Critical Care**  
Primary Curriculum Category: Palliative Care & End of Life

**My Patient Has Pulmonary Hypertension: What's Next?**  
Primary Curriculum Category: Pulmonary Vascular Disease

**Heart Failure With Preserved Ejection Fraction: A New Pandemic That Is Staying Forever**  
Primary Curriculum Category: Cardiovascular Disease

**Challenges in Management of Obstetric Emergencies in the Critical Care Setting**  
Primary Curriculum Category: Critical Care

**Case Studies in Difficult Airway Management**  
Primary Curriculum Category: Critical Care

**Sleep Medicine Year in Review: Update on Respiratory Sleep Disorders 2023**  
Primary Curriculum Category: Sleep Disorders

**Difficult Titrations: Working With Technologists in Between Science and Art**  
Primary Curriculum Category: Sleep Disorders

**Telomeres and Interstitial Lung Disease: What Do We Need to Know?**  
Primary Curriculum Category: Diffuse Lung Disease

**Integration of APPs in the ICU: A Pro-Con Debate on APP Nonclinical Roles**  
Primary Curriculum Category: Critical Care

**All That Wheezes Is Not Asthma: A Case-Based Approach**  
Primary Curriculum Category: Signs and Symptoms of Chest Diseases

**World Bronchiectasis Session: What's New in Non-CF Bronchiectasis and NTM Lung Disease**  
Primary Curriculum Category: Chest Infections

**Multidisciplinary Management of Mediastinal Masses**  
Primary Curriculum Category: Disorders of the Mediastinum

**Eosinophilic Lung Diseases: Current Knowledge and Future Directions**  
Primary Curriculum Category: Allergy and Airway

**Problem-Based Learning 2023: Case-Based Radiology Series on ILD – An Interactive Session** \$  
Primary Curriculum Category: Imaging

8:15 AM - 9:15 AM

**Management of Nonmalignant Pleural Effusion**  
Primary Curriculum Category: Disorders of the Pleura

**Rare Air: High Altitude Pathophysiology, Syndromes, Transport, and Management**  
Primary Curriculum Category: Occupational and Environmental

**Hot Topics in Treatment of Central Sleep Apnea**  
Primary Curriculum Category: Sleep Disorders

**Controversies in Fluid and Pressor Use in Critically Ill Patients**  
Primary Curriculum Category: Critical Care

**Oncological Critical Care**  
Primary Curriculum Category: Critical Care

**Shifting to Hawai'i: Jet Lag, Shift Workers, and Sleep for Health Care Providers**  
Primary Curriculum Category: Sleep Disorders

**SMART Therapy and Allergy Immunotherapy in GINA/EPR-4 Guidelines for Asthma Control: Pros and Cons**  
Primary Curriculum Category: Allergy and Airway

**Updates in Pediatric Pulmonology: Year in Review (Asthma, Sleep, CF, Muscular Dystrophies/SMA)**  
Primary Curriculum Category: Pediatrics

**Initiating Long-Term Home Noninvasive Ventilation in the ICU**  
Primary Curriculum Category: Critical Care

**Sarcoidosis: Diagnosing and Managing Pulmonary, Endobronchial, and Cardiac Manifestations**

Primary Curriculum Category: Diffuse Lung Disease

**APCCMPD and CHEST Clinician Educator Forum: Beyond the Individual – Team Cognition in Critical Care**

Primary Curriculum Category: Educator Development

**Problem-Based Learning 2023: Difficult Interstitial Lung Disease Cases** \$

Primary Curriculum Category: Diffuse Lung Disease

8:45 AM - 10:45 AM

**Simulation: Bronchoscopic Evaluation and Management of Persistent Air Leaks** \$

9:30 AM - 10:30 AM

**Digging Into PAP Download Data: A Case-Based Session**

Primary Curriculum Category: Respiratory Care

**Controversies in Cardiac Resuscitation Management: An Interactive Case-Based Discussion**

Primary Curriculum Category: Critical Care

**From Home Ventilation to Ambulatory Critical Care: Changing Paradigms in Chronic Respiratory Failure**

Primary Curriculum Category: Respiratory Care

**Nuances of Patient Inhaler Device Use: Hands-on, Video Case-Based Learning**

Primary Curriculum Category: Obstructive Lung Diseases

**Tracheostomy in the ICU: From Beginning to End**

Primary Curriculum Category: Critical Care

**Critical Care Year in Review – I**

Primary Curriculum Category: Critical Care

**Advances in Diagnosis and Treatment of Tuberculosis Disease**

Primary Curriculum Category: Chest Infections

**Use of Telemedicine for Asthma and COPD Self-Management Among Underserved Populations**

Primary Curriculum Category: Obstructive Lung Diseases

**Lung Cancer in 2023: Shining a Light on Enduring Disparities**

Primary Curriculum Category: Lung Cancer

**Women and Lung Disease: Sex-Distinct Care**

Primary Curriculum Category: Pulmonary Manifestations of Systemic Disease

**Treatment of Cystic Fibrosis in the Age of CFTR Modulators**

Primary Curriculum Category: Allergy and Airway

**APCCMPD and CHEST Clinician Educator Forum: Getting Beyond “Read More” – A Faculty Development Workshop on Narrative Assessment**

Primary Curriculum Category: Educator Development

**Simulation: EBUS-Based Mediastinal Anatomy – Nodes, Vessels, and Landmarks** \$

**Problem-Based Learning 2023: Nonresolving Pneumonia** \$

Primary Curriculum Category: Respiratory Care

9:30 AM - 11:30 AM

**Simulation: Who Needs Sedation Anyway? – Patient-Ventilator Dyssynchrony** \$

**Simulation: Advanced Critical Care Echocardiography** \$

**Simulation: ECMO – When to Start, When to Stop, and Everything in Between** \$

**Simulation: Can’t Intubate, Can’t Oxygenate – EGA and Cricothyrotomy for the Failed Airway** \$

9:45 AM - 11:45 AM

**Simulation: Ultrasonography to Facilitate Vascular Access, Thoracentesis, Chest Tube Placement, and Paracentesis** \$

**Simulation: Cardiopulmonary Exercise Testing With Focus on Test Performance and Interpretation** \$

10:45 AM - 11:45 AM

**Controversies in Asthma-COPD Overlap: A Pro-Con Debate**

Primary Curriculum Category: Obstructive Lung Diseases

**A Systematic Approach to Bronchiolitis or Bronchiolar Disorders**

Primary Curriculum Category: Allergy and Airway

**Critical Care Year in Review – II**

Primary Curriculum Category: Critical Care

**Is This Really PAH? My Spidey Sense Is Tingling**

Primary Curriculum Category: Pulmonary Vascular Disease

**Respiratory Management of Patients With Neuromuscular Weakness: CHEST Clinical Practice Guideline**

Primary Curriculum Category: Sleep Disorders

**Overcoming Chronic Lung Allograft Dysfunction: Update on Risk Factors, Detection, and Treatment**

Primary Curriculum Category: Transplantation

**Learning Ventilator Graphics by Altering Test Lung/Ventilator Settings**

Primary Curriculum Category: Respiratory Care

**Lung Cancer in Idiopathic Pulmonary Fibrosis and Lung Transplant: Diagnostic and Therapeutic Dilemmas**

Primary Curriculum Category: Lung Cancer

**Advances in Pediatric Care and Transition of Care: Year in Review**

Primary Curriculum Category: Pediatrics

**Community-Acquired Pneumonia: New Frontiers in the Oldest Disease**

Primary Curriculum Category: Respiratory Care

HONOLULU | OCTOBER 8-11

CHEST 2023 EDUCATIONAL PROGRAM

[chestmeeting.chestnet.org](https://chestmeeting.chestnet.org)

\$ Additional registration fee is required.

*This schedule is subject to change. Last updated May 1, 2023.*

**APCCMPD and CHEST Clinician Educator Forum: Use of Novel Technologies to Improve Clinical Training and Enhance Patient Safety**

Primary Curriculum Category: Educator Development

**Meet the Professor 2023: Difficult Central Airway Obstruction Management**

Primary Curriculum Category: Obstructive Lung Diseases

11:00 AM - 12:00 PM

**Simulation: Chest Tube Placement and Management**

**Simulation: Bronchoscopic Management of Bleeding**

1:00 PM - 2:30 PM

**Simulation: Maybe We Don't Have to Intubate – High-Flow Nasal Cannula Oxygen Therapy and Noninvasive Ventilation for Acute Respiratory Failure**

**Simulation: Awake Intubation in the ICU, Now Guideline-Based – This Is NOT the Bronch Suite**

1:30 PM - 2:30 PM

**Acute Right Ventricular Failure Management: Different Training, Different Approaches**

Primary Curriculum Category: Cardiovascular Disease

**Survivorship in Patients With Lung Cancer: Patient Needs and Available Interventions**

Primary Curriculum Category: Lung Cancer

**The Power of Narrative Medicine**

Primary Curriculum Category: Critical Care

**Updates to the Asthma Diagnostic Toolbox: Bronchodilator Reversibility, FENO, and Oscillometry**

Primary Curriculum Category: Pulmonary Physiology

**Obesity Hypoventilation Syndrome: Case-Based Accounts of Outpatient and Inpatient Management**

Primary Curriculum Category: Sleep Disorders

**Pulmonary Rehabilitation: Nuts, Bolts, and Lessons Learned**

Primary Curriculum Category: Pulmonary Rehabilitation

**Comprehensive Approach to Cystic Lung Diseases**

Primary Curriculum Category: Diffuse Lung Disease

**Challenging NTM Cases**

Primary Curriculum Category: Chest Infections

**Key Revisions to GOLD 2023: What Are the Clinical Impacts?**

Primary Curriculum Category: Obstructive Lung Diseases

**You Did What Where? – Evaluating the Critically Ill Febrile Traveler**

Primary Curriculum Category: Chest Infections

**Fostering Strong Mentorship: An Interactive Discussion in Four Acts**

Primary Curriculum Category: Educator Development

**Call to Action: Health Care Disparities in Pulmonary Vascular Disease**

Primary Curriculum Category: Pulmonary Vascular Disease

**A Systematic Approach to the Management of Massive Hemoptysis**

Primary Curriculum Category: Critical Care

**Dial in to Telemedicine: New Perspectives**

Primary Curriculum Category: Business of Medicine

**ALAT/CHEST: Current Challenges in the Management of Tuberculosis**

Primary Curriculum Category: Chest Infections

**Simulation: Airway Foreign Body Management**

**Simulation: Tunneled Indwelling Pleural Catheter – Placement, Management, and Complications**

3:15 PM – 5:15 PM

**CHEST Opening Session and Keynote Address**

**MONDAY, OCTOBER 9, 2023**

7:15 AM - 8:15 AM

**Herdng Cats: Running Effective Rounds in the ICU**

Primary Curriculum Category: Critical Care

**Teaching Strategies for Supervising Bedside Procedures: Beyond “See One, Do One, Teach One”**

Primary Curriculum Category: Education

**Status Asthmaticus From the ED to the ICU: A Choose Your Own Adventure Case-Based Review**

Primary Curriculum Category: Allergy and Airway

**How to Handle the Com-PLEX-ity of Antibodies in Lung Transplantation**

Primary Curriculum Category: Transplantation

**Achieving Health Equity in Lung Cancer Screening**

Primary Curriculum Category: DEI & Justice in Medicine

**Endemic Fungal Infections: State-of-the-Art Diagnosis and Treatment**

Primary Curriculum Category: Chest Infections

**Advanced Topics in Nonrespiratory Critical Care: A Rapid-Fire Session**

Primary Curriculum Category: Critical Care

**Preventing Complications in ICU Airway Management**

Primary Curriculum Category: Critical Care

**Debates on the Management of Massive Pulmonary Embolism: Cracking the Clot**

Primary Curriculum Category: Pulmonary Vascular Disease

HONOLULU | OCTOBER 8-11

**CHEST 2023 EDUCATIONAL PROGRAM**

[chestmeeting.chestnet.org](https://chestmeeting.chestnet.org)

Additional registration fee is required.

This schedule is subject to change. Last updated May 1, 2023

### Cardiopulmonary Exercise Testing

#### Pearls: Case-Based Interactive Session

Primary Curriculum Category: Pulmonary Physiology

### In the Age of Recalls, How Do I Manage These Other Devices?

Primary Curriculum Category: Sleep Disorders

### The Window Is Open: Multidisciplinary Considerations in Lung Cancer

Primary Curriculum Category: Lung Cancer

### Diagnostic Challenges in OSA

Primary Curriculum Category: Sleep Disorders

### ATS/CHEST Session: Advances in Bronchiectasis 2023

### Simulation: Chest Tube Placement and Management \$

### Problem-Based Learning 2023:

#### Mastering Biologics in Asthma \$

Primary Curriculum Category: Allergy and Airway

7:15 AM - 9:15 AM

### Simulation: Thoracic and Diaphragmatic Ultrasound for the Pulmonary Consultant \$

8:30 AM - 9:30 AM

### Biologics in Airway Disorders: Emerging Data

Primary Curriculum Category: Allergy and Airway

### Insomnia! What to Do if You Do Not Have a Sleep Psychologist Available: A Case-Based Approach

Primary Curriculum Category: Sleep Disorders

### Teaching Methods After the Pandemic: Must Convert, Don't Revert

Primary Curriculum Category: Educator Development

### Pneumothorax: Updates in Incidence, Management, and Treatment Options

Primary Curriculum Category: Disorders of the Pleura

### Caught in the Cavity: Challenging Cases of Cavitary Lung Disease

Primary Curriculum Category: Lung Pathology

### Beyond Survival: Approaches to Optimize Critical Illness Recovery

Primary Curriculum Category: Critical Care

### Severe ARDS: State-of-the-Art Management Strategies

Primary Curriculum Category: Critical Care

### Pulmonary Vascular and Right Heart Imaging

Primary Curriculum Category: Imaging

### Pardon the Interruption 2023: Controversies in Critical Care

#### Tournament of Champions

Primary Curriculum Category: Critical Care

### And Sleep for All: Developing Effective Telesleep Across the United States

Primary Curriculum Category: Sleep Disorders

### Simulation: Tunneled Indwelling Pleural Catheter – Placement, Management, and Complications \$

### Meet the Professor 2023: Thoracic Surgery Interactive Cases – Assessing the Borderline Patient and Sublobar Resection \$

Primary Curriculum Category: Cardiothoracic Surgery

8:30 AM - 10:30 AM

### Simulation: Who Needs Sedation Anyway? – Patient-Ventilator Dyssynchrony \$

### Simulation: Cardiopulmonary Exercise Testing With Focus on Test Performance and Interpretation \$

### Simulation: HiFi ICU Sim – Applying Airway, Ultrasound, and Mechanical Ventilation Skills to the Unstable Patient \$

9:30 AM – 3:30 PM

### Exhibit Hall Open

Browse exhibitor booths, attend industry education sessions, review abstracts and case reports presented in both rapid-fire and poster formats, and experience game-based learning in the Exhibit Hall.

9:30 AM - 11:30 AM

### Simulation: The Bronchoscopy Grand Slam – Critical Skills and Complication Management Techniques \$

9:45 AM - 11:45 AM

### Simulation: Transesophageal Echocardiography for the Intensivist \$

10:30 AM - 11:30 AM

### Debates and Controversies in Cardiogenic Shock: What to Do With the Current Evidence?

Primary Curriculum Category: Cardiovascular Disease

### ICU Management of Patients With Obstructive Lung Disease

Primary Curriculum Category: Critical Care

### From Intubation to Extubation: A Review of the Most Recent Literature

Primary Curriculum Category: Critical Care

### Are the Viruses Taking Over Lower Respiratory Tract Infections?

Primary Curriculum Category: Chest Infections

### Updates in Pleural Disease for 2023

Primary Curriculum Category: Disorders of the Pleura

### Mock Multidisciplinary Discussion in Interstitial Lung Diseases: To Biopsy or Not

Primary Curriculum Category: Diffuse Lung Disease

### Air Pollution and Health: From Tailpipes and Smokestacks to Our Patients and Communities

Primary Curriculum Category: Occupational and Environmental

HONOLULU | OCTOBER 8-11

## CHEST 2023 EDUCATIONAL PROGRAM

[chestmeeting.chestnet.org](https://chestmeeting.chestnet.org)

\$ Additional registration fee is required.

*This schedule is subject to change. Last updated May 1, 2023.*

### POCUS Controversies in the ICU

Primary Curriculum Category: Critical Care

### Innovative Imaging Techniques for Interstitial Lung Diseases

Primary Curriculum Category: Diffuse Lung Disease

### Simulation: EBUS-Based Mediastinal Anatomy – Nodes, Vessels, and Landmarks

\$

### Problem-Based Learning 2023: Advanced Positive Pressure Therapies and Noninvasive Ventilation

\$

Primary Curriculum Category: Respiratory Care

1:00 PM - 2:00 PM

### Sepsis Evidence Gaps and How to Overcome Them in Practice

Primary Curriculum Category: Critical Care

### PAP Adherence: Gaps and Opportunities

Primary Curriculum Category: Sleep Disorders

### Maximizing Oxygen Efficacy in the Ambulatory Setting

Primary Curriculum Category: Pulmonary Physiology

### Continuous Renal Replacement Therapy: A Primer for the Intensivist

Primary Curriculum Category: Critical Care

### Cardiac Waveforms in the ICU

Primary Curriculum Category: Critical Care

### Applicability of the New ESC/ERS PAH Guidelines in the US: A Pro-Con Debate

Primary Curriculum Category: Pulmonary Vascular Disease

### Approach to CTD-ILD and IPAF: The Rheumatologist, Radiologist, and Pathologist Perspectives

Primary Curriculum Category: Diffuse Lung Disease

### Advanced COPD Comprehensive Care: Denervation to Rehab

Primary Curriculum Category: Obstructive Lung Diseases

### Whole Lot of Trachin' Going on: Management of Post-Tracheostomy Complications

Primary Curriculum Category: Respiratory Care

### Chronic Cough: Symptom or Disease?

Primary Curriculum Category: Signs and Symptoms of Chest Diseases

### Simulation: Bronchoscopic Management of Bleeding

\$

1:00 PM - 2:30 PM

### Simulation: Bronchoscopy-Assisted Percutaneous Tracheostomy Placement and Troubleshooting

\$

1:00 PM - 3:00 PM

### Simulation: So You've Intubated the Patient, Now What? – Initial and Subsequent Management of Mechanical Ventilation

\$

### Simulation: ECMO – When to Start, When to Stop, and Everything in Between

\$

### Simulation: Nightmares on Airway Street – Taking the Horror out of Airway Challenges

\$

2:00 PM - 4:00 PM

### Simulation: Echo for the Rapid Assessment of Hemodynamic Failure

\$

### Simulation: Ultrasonography to Facilitate Vascular Access, Thoracentesis, Chest Tube Placement, and Paracentesis

\$

3:00 PM - 4:00 PM

### Personalized Approach to Managing COPD: A 2023 Update

Primary Curriculum Category: Obstructive Lung Diseases

### Home Rehabilitation, Health Coaching, and Remote Patient Monitoring: Implementation and Billing

Primary Curriculum Category: Pulmonary Rehabilitation

### Women's Sleep Health: An Update on Sleep Disorders in Women

Primary Curriculum Category: Sleep Disorders

### Case-Based Ventilator Graphics: Using Graphics to Optimize Patient Management

Primary Curriculum Category: Critical Care

### Critical Updates in Pediatric Sleep-Disordered Breathing

Primary Curriculum Category: Sleep Disorders

### Beyond Cystic Fibrosis: What Adult Pulmonologists Need to Know About Pediatric Lung Disease

Session Type: Core Interactive Session

### Team up on Tumor Board

Primary Curriculum Category: Lung Cancer

### Care of the Transgender Patient: From Terminology to Clinics to ICUs

Primary Curriculum Category: DEI & Justice in Medicine

### A Breath of Fresh Air: Bronchoscopic Interventions for Patients With COPD

Primary Curriculum Category: Procedures

### Evaluation and Management of Neuromuscular Respiratory Failure in the ICU

Primary Curriculum Category: Critical Care

### Rapid-Fire: Clinical Challenges of Patients With HAP and VAP

Primary Curriculum Category: Chest Infections

### The Changing Landscape of Medical Education and the Power and Pitfalls of Using Social Media

Primary Curriculum Category: Educator Development

### HIGH and LOW: A Deep Dive Into Barometric Pulmonary Physiology

Primary Curriculum Category: Pulmonary Physiology

### Interactive Radiology Session: Case-Based Interpretations of Chest CT Scans

Primary Curriculum Category: Imaging

HONOLULU | OCTOBER 8-11

## CHEST 2023 EDUCATIONAL PROGRAM

[chestmeeting.chestnet.org](https://chestmeeting.chestnet.org)

\$ Additional registration fee is required.

This schedule is subject to change. Last updated May 1, 2023

**Simulation: Airway Foreign Body Management** \$

**TUESDAY, OCTOBER 10, 2023**

7:15 AM - 8:15 AM

**Asthma 2023: A Multidisciplinary Update**

Primary Curriculum Category: Allergy and Airway

**Drinking From the Fire Hose: Leading in an ICU**

Primary Curriculum Category: Critical Care

**Key Clinical Steps in Transitioning Patients With Chronic Hypercapnia to Home Mechanical Ventilation**

Primary Curriculum Category: Sleep Disorders

**The Interprofessional Case for Compassion at the End of Life in the ICU**

Primary Curriculum Category: Palliative Care & End of Life

**A Systematic Approach to Undifferentiated Shock: From POCUS to PACs!**

Primary Curriculum Category: Critical Care

**Lung Pathology Review for Board Exams AND for Daily Practice**

Primary Curriculum Category: Lung Pathology

**How Fit Is Fit? – Optimizing Fitness Prior to Transplantation**

Primary Curriculum Category: Transplantation

**Preventing Opportunistic Infections in Immunocompromised Hosts: Is It Even Possible?**

Primary Curriculum Category: Chest Infections

**An Innovative, Highly Interactive Discussion of Intermediate-Risk Pulmonary Embolism**

Primary Curriculum Category: Pulmonary Vascular Disease

**Instituting Change in Your Program: Leadership and Change Management for Clinicians and Educators**

Primary Curriculum Category: Business of Medicine

**Beyond Smoking: Identifying Those With Lung Cancer Risk**

Primary Curriculum Category: Lung Cancer

**Simulation: EBUS-Based Mediastinal Anatomy – Nodes, Vessels, and Landmarks** \$

**Problem-Based Learning 2023: Submassive Pulmonary Embolism Right Heart Failure** \$

Primary Curriculum Category: Cardiovascular Disease

7:15 AM - 9:15 AM

**Simulation: Advanced Critical Care Echocardiography** \$

**Simulation: More Airway Nightmares – Taking the Horror out of Airway Challenges** \$

7:30 AM - 9:30 AM

**Simulation: ECMO – When to Start, When to Stop, and Everything in Between** \$

8:30 AM - 9:30 AM

**Update in Nonrespiratory Sleep Medicine: A Case-Based Approach**

Primary Curriculum Category: Sleep Disorders

**What's the Volume Status? – Pragmatic Methods for Hemodynamic Assessment of Fluid Tolerance**

Primary Curriculum Category: Critical Care

**Rapid-Fire Topics in Lung Cancer and Pulmonary Procedures**

Primary Curriculum Category: Lung Cancer

**Right Heart Failure: Keeping the Right Heart Right**

Primary Curriculum Category: Critical Care

**Interstitial Lung Disease After Surviving COVID-19: An Update for 2023**

Primary Curriculum Category: Diffuse Lung Disease

**Pulmonary Hypertension and the Methamphetamines Pandemic: Impact, Approach, and Addiction**

Primary Curriculum Category: Pulmonary Vascular Disease

**Controversies in the Care of Patients With Severe CAP**

Primary Curriculum Category: Chest Infections

**Pardon the Interruption 2023: Controversies in Asthma**

Primary Curriculum Category: Allergy and Airway

**Meet the Professor 2023: Obesity Hypoventilation** \$

Primary Curriculum Category: Respiratory Care

8:30 AM - 10 AM

**Simulation: Bronchoscopy-Assisted Percutaneous Tracheostomy Placement and Troubleshooting** \$

8:30 AM - 10:30 AM

**Simulation: So You've Intubated the Patient, Now What? – Initial and Subsequent Management of Mechanical Ventilation** \$

**Simulation: Comprehensive Endobronchial Ultrasound and Transbronchial Needle Aspiration** \$

9:30 AM – 2:00 PM

**Exhibit Hall Open**

Browse exhibitor booths, attend industry education sessions, review abstracts and case reports presented in both rapid-fire and poster formats, and experience game-based learning in the Exhibit Hall.

9:45 AM - 11:45 AM

**Simulation: Ultrasonography to Facilitate Vascular Access, Thoracentesis, Chest Tube Placement, and Paracentesis** \$

**Simulation: Thoracic and Diaphragmatic Ultrasound for the Pulmonary Consultant** \$

HONOLULU | OCTOBER 8-11

CHEST 2023 EDUCATIONAL PROGRAM

[chestmeeting.chestnet.org](https://chestmeeting.chestnet.org)

\$ Additional registration fee is required.

*This schedule is subject to change. Last updated May 1, 2023.*

**Simulation: Maximize Your View – Expert Skills in Laryngoscopy** \$

10:30 AM - 11:30 AM

**Right Patient, Right Settings: Targeted Strategies for Managing NIV in COPD, OHS, and NMD**

Primary Curriculum Category: Respiratory Care

**Fierce Feedback: The Art of Giving Feedback in Difficult Situations**

Primary Curriculum Category: Educator Development

**Vasoactive Therapies in Refractory Septic Shock**

Primary Curriculum Category: Critical Care

**Meet the Professor 2023: Battling Bronchiectasis Exacerbations** \$

Primary Curriculum Category: Chest Infections

12:45 PM - 2:45 PM

**Simulation: Echo for the Rapid Assessment of Hemodynamic Failure** \$

**Simulation: Can't Intubate, Can't Oxygenate – EGA and Cricothyrotomy for the Failed Airway** \$

1:00 PM - 2:30 PM

**Simulation: Maybe We Don't Have to Intubate – High-Flow Nasal Cannula Oxygen Therapy and Noninvasive Ventilation for Acute Respiratory Failure** \$

1:45 PM - 2:45 PM

**Medical Transport of Critically Ill Patients: A Road Less Traveled**

Primary Curriculum Category: Critical Care

**Conducting Lung Cancer Screening in Your Community: Building and Maintaining a Sustainable Program**

Primary Curriculum Category: Lung Cancer

**Cutting to the Heart of Sepsis: Cardiac Dysfunction in Sepsis and Septic Shock**

Primary Curriculum Category: Critical Care

**Evidence-Based ECMO: Advancing Support Beyond Historical Data**

Primary Curriculum Category: Critical Care

**Choosing the Best Option: Treatment Alternatives to CPAP for OSA**

Primary Curriculum Category: Sleep Disorders

**Future Directions in Pulmonary Fibrosis**

Primary Curriculum Category: Diffuse Lung Disease

**POCUS Cross Fire Debate: Clinically Relevant Controversies in Point-of-Care Ultrasound**

Primary Curriculum Category: Imaging

**The ABCs of E-COPD: A Deeper Look at Eosinophilic COPD**

Primary Curriculum Category: Obstructive Lung Diseases

**It's Just Heart Surgery: What Could Possibly Go Wrong?**

Primary Curriculum Category: Cardiothoracic Surgery

**Deep in the Heart of Sleep: New Opportunities to Fix Things**

Primary Curriculum Category: Sleep Disorders

**Simulation: Bronchoscopic Management of Bleeding** \$

**Simulation: Chest Tube Placement and Management** \$

**WEDNESDAY, OCTOBER 11, 2023**

7:15 AM - 8:15 AM

**Challenges and Innovations to Improving Care for Rural Patients With Interstitial Lung Disease**

Primary Curriculum Category: Diffuse Lung Disease

**Pain, Agitation, and Delirium in the ICU: Prevention and Management**

Primary Curriculum Category: Critical Care

**Emerging Special Pathogens in 2023: What All Providers Should Know**

Primary Curriculum Category: Disaster Medicine

**Update in Neurocritical Care**

Primary Curriculum Category: Critical Care

**Pardon the Interruption 2023: Controversies in Interventional Pulmonology**

Primary Curriculum Category: Procedures

**Challenges Faced by Education Faculty**

Primary Curriculum Category: Educator Development

**The National Board of Echocardiography Certification in Advanced Critical Care Echocardiography**

Primary Curriculum Category: Imaging

**Follow-up After Acute Pulmonary Embolism and the SEARCH Algorithm: A Rapid-Fire Discussion**

Primary Curriculum Category: Pulmonary Vascular Disease

**Advanced Ventilator Management: Where Technology Meets Physiology**

Primary Curriculum Category: Critical Care

**Problem-Based Learning 2023: Lung Cancer Screening and Staging – Do's and Don't's** \$

Primary Curriculum Category: Lung Cancer

8:30 AM - 9:30 AM

**Current Controversies in Pulmonary Function Test Interpretation**

Primary Curriculum Category: Pulmonary Physiology

**Preoperative Pulmonary Hypertension Shark Tank: An Interactive Experience**

Primary Curriculum Category: Pulmonary Vascular Disease

**New Horizons in Disorders of Central Hypersomnia: Updates on Diagnosis and Management**

Primary Curriculum Category: Sleep Disorders

**Stuck on Suction! The Dilemma of the Persistent Air Leak**

Primary Curriculum Category: Disorders of the Pleura

**Controversies in Mechanical Ventilator Liberation**

Primary Curriculum Category: Critical Care

HONOLULU | OCTOBER 8-11

**CHEST 2023 EDUCATIONAL PROGRAM**

[chestmeeting.chestnet.org](https://chestmeeting.chestnet.org)

\$ Additional registration fee is required.

*This schedule is subject to change. Last updated May 1, 2023*

**Big Data in Sepsis: From Epidemiology to Diagnosis**

Primary Curriculum Category: Critical Care

**Asthma Across the Life Span**

Primary Curriculum Category: Allergy and Airway

**Bronchoscopic Ablation of Peripheral Lung Tumors: A Pro-Con Debate**

Primary Curriculum Category: Lung Cancer

**Sarcoidosis: Advanced-Level Care**

Primary Curriculum Category: Diffuse Lung Disease

**Problem-Based Learning 2023: Managing the Crashing Patient in the ICU Using the Latest Guidelines** \$

Primary Curriculum Category: Critical Care

9:30 AM – 1:00 PM

**Exhibit Hall Open**

Browse exhibitor booths, attend industry education sessions, review abstracts and case reports presented in both rapid-fire and poster formats, and experience game-based learning in the Exhibit Hall.

10:30 AM – 11:30 AM

**Interstitial Lung Abnormalities: When Are They Incidental? When Are They Interstitial Lung Disease?**

Primary Curriculum Category: Diffuse Lung Disease

**Artificial Intelligence in Pulmonary and Critical Care: A Pro-Con Debate**

Primary Curriculum Category: Biotechnology

**Hospital-Acquired Sepsis: Should I Be Worried?**

Primary Curriculum Category: Critical Care

**Conflict Resolution and Preventing No-Win Communication in the ICU: The Kobayashi Maru**

Primary Curriculum Category: Educator Development

**What Medical Intensivists Need to Know About Trauma**

Primary Curriculum Category: Disaster Medicine

**Pulmonary Complications of Liver Disease**

Primary Curriculum Category: Pulmonary Vascular Disease

**Hands-on Training on Airway Clearance Techniques and Devices**

Primary Curriculum Category: Bronchiectasis and CF

**Changing the Course of the Vaping Epidemic Through Advocacy**

Primary Curriculum Category: Tobacco Cessation & Prevention

**The Peripheral Lung Nodule: Where Are We Now?**

Primary Curriculum Category: Lung Cancer

**Problem-Based Learning 2023: Using CPET to Solve Your Difficult Cases** \$

Primary Curriculum Category: Pulmonary Vascular Disease

1:00 PM - 2:00 PM

**Debunking Myths in Pleural Diseases**

Primary Curriculum Category: Disorders of the Pleura

**Cardiac Valvular Urgencies in the ICU**

Primary Curriculum Category: Cardiovascular Disease

**Hiding in Plain Sight: Cystic Fibrosis Diagnosis in Minorities and Adults**

Primary Curriculum Category: Bronchiectasis and CF

**Pulmonary and Sleep Manifestation of Neuromuscular Disease: Management, Transitions, and Acute Illness**

Primary Curriculum Category: Pediatrics

**Localized Lung Lesions: Beyond Malignancy**

Primary Curriculum Category: Lung Pathology

**Lung Transplantation: What's New and on the Horizon**

Primary Curriculum Category: Transplantation

**Critical Care Challenges in the Patient With Morbid Obesity**

Primary Curriculum Category: Critical Care

**POST-MEETING MASTER CLASSES (HELD ON MAUI)**

**THURSDAY, OCTOBER 12, 2023**

12:55 PM - 5:30 PM

**Master Class: 2023 Pulmonary Literature Review and Complex Case Presentations – An Interactive Course With the Masters in Pulmonology (Day 1)** \$

Primary Curriculum Category: Respiratory Care

1:00 PM - 5:00 PM

**Master Class: Avoiding Catastrophic Crisis in the ICU and Mastering Critical Care (Day 1)** \$

Primary Curriculum Category: Critical Care

**FRIDAY, OCTOBER 13, 2023**

7:25 AM - 12:00 PM

**Master Class: 2023 Pulmonary Literature Review and Complex Case Presentations – An Interactive Course With the Masters in Pulmonology (Day 2)** \$

Primary Curriculum Category: Respiratory Care

7:30 AM - 12:00 PM

**Master Class: Avoiding Catastrophic Crisis in the ICU and Mastering Critical Care (Day 2)** \$

Primary Curriculum Category: Critical Care
